

U.S. Patent No. 8,799,083	Toast Takeout mobile application
1. A method, comprising:	

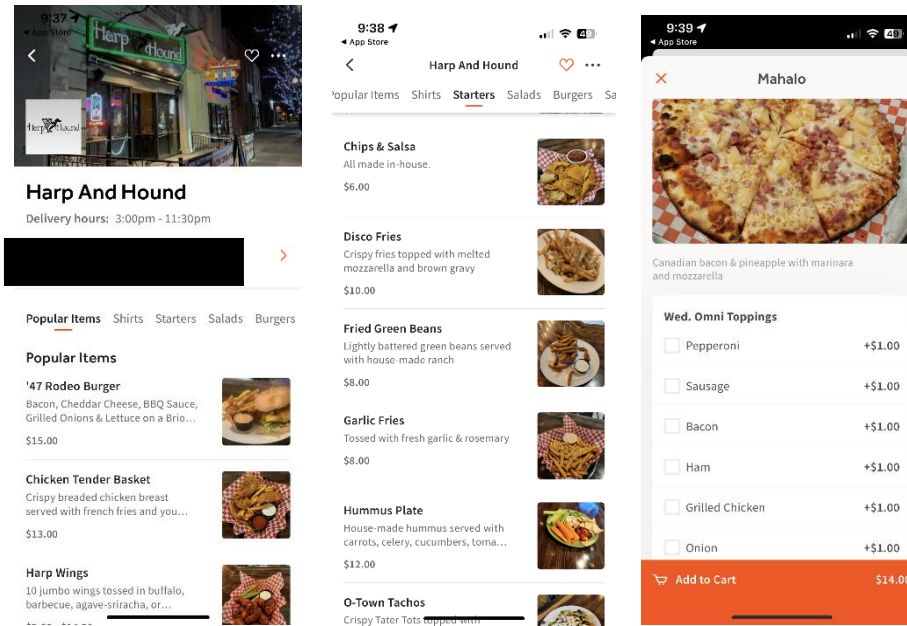

receiving at least one request of at least one service related to a restaurant menu from a mobile phone;

(a) selecting a specific restaurant to collect the order from:

(b) browsing the menu and adding items to the order:

uploading, by a system of a restaurant, a bill for the at least one service to the mobile phone; and

The screenshot shows a mobile application interface for a restaurant named Mahalo. The screen is titled 'Cart' and displays the following information:

- Your Order:** Mahalo, \$14.00
- Subtotal:** \$14.00
- Delivery Cost:** \$7.95
- Taxes & Fees:** \$1.15
- Tip:** \$2.80
- Total:** \$25.90

Below the order summary, there is a section for 'Driver Tip' with four options: 10% (\$1.40), 15% (\$2.10), 20% (\$2.80), and Custom. The 20% option is highlighted with a red border.

Below the tip section, there is a 'Payment Method' section with a button labeled 'Add Payment'.

At the bottom of the screen, there is an orange button labeled 'Sign up to Checkout' with the total amount \$25.90.

performing a self-checkout by at least one customer whereby payment for the at least one service is submitted by the at least one customer via the mobile phone to the system,

wherein the payment is submitted without interaction with staff associated with the restaurant.
